WORKSHOP FOR THE EU BUSINESS COMMUNITY: DISCUSSING MARKET OPPORTUNITIES AND CHALLENGES

The Delegation of the European Union to Canada and the European Chamber of Commerce in Canada invite you to contribute to a high-level discussion on the current market access opportunities and challenges for European businesses established in Canada and those planning to expand into Canadian markets. This interactive, EU funded event, will bring together a diversity of industry representatives and established Euro/Canadian networks, to exchange insightful information on the current situation for European companies in the Canadian market.

This Workshop is part of the wider outreach program under the 'CETA Market Access Program for EU Business' which aims to enable and expand a sustainable information sharing network amongst EU stakeholders.

For more information about the Program or to register your interest in attending this event please visit the EUCCAN website [here](#).

This event is being organized by the contractor DEVELOPMENT Solutions Europe Limited and Borden Ladner Gervais LLP as part of the EU funded CETA Market Access Program for EU Business.
